

THE “VASILE GOLDIȘ” WESTERN UNIVERSITY OF ARAD
THE FACULTY OF MEDICINE
STUDY PROGRAM _____

GUIDANCE SHEET

For the student _____

Scientific supervisor _____

Paper topic _____

Semester I

Date of the appointment: **week 1-2** Partial evaluation of the paper:

- Establishing the topic of the Bachelor paper

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 3-4** Partial evaluation of the paper:

- Establishing the plan of the paper.

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 5-6** Partial evaluation of the paper:

- Analyze of the data from the specialized literature

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 7-8** Partial evaluation of the paper:

- Establishing the references

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 9-10** Partial evaluation of the paper:

- Presentation of the topic – which topic is studied
- Substantiation of the topic approach – why is it important and for whom does it present interest

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 11-12** Partial evaluation of the paper:

- The purpose and the objectives of the paper – the way how the own results relate to those acquired in other studies in the field

(if they are compliant or different etc.)

- Presentation of the paper structure

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 13-14** Partial evaluation of the paper

- Main relevant theoretical results in the specialized literature
- Eventual arguments of opinion on the existing theories
- The empiric results occurring from the considered theories
- Expected results of the paper, based on the identified theoretical and empirical contributions

Recommendations from the supervisor:

Comments:

Semester II

Date of the appointment: **week 1-2** Partial evaluation of the paper:

- The purpose of performing the study
- Main intended objectives
- The tools to achieve it (empiric analysis, statistics, questionnaires, interviews etc.)
- The main steps of the case study

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 3-4** Partial evaluation of the paper:

- The analysis and the presentation of the material for study and of the methods used for the drafting of the scientific paper

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 5-6** Partial evaluation of the paper:

- The analysis and the presentation of the material for study and of the methods used for drafting the scientific paper
- The main achieved results

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 7-8** Partial evaluation of the paper:

- The analysis and the presentation of the material for study and of the methods used for drafting the scientific paper
- Interpretation of the results

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 9-10** Partial evaluation of the paper:

- The issuing and the presentation of the conclusions

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 11-12** Partial evaluation of the paper:

- Completing and drafting of the scientific paper

Recommendations from the supervisor:

Comments:

Date of the appointment: **week 13-14** Partial evaluation of the paper:

- The analysis of the Bachelor portfolio resulted from the efforts of documentation and drafting
- The Bachelor portfolio is to comprise:
 1. The applicant's guidance sheet, issue by the scientific supervisor – Appendix 6
 2. The plan of the paper, signed by the scientific supervisor
 3. References (books, papers, publications, online published materials etc.)
 4. Proof of the authenticity of the material resources used for drafting the special part
 5. The report on the Bachelor thesis, issued by the scientific supervisor, certifying the existence of the portfolio – Appendix 5

Recommendations from the supervisor:

Comments:
